EVALUATION SCOPE

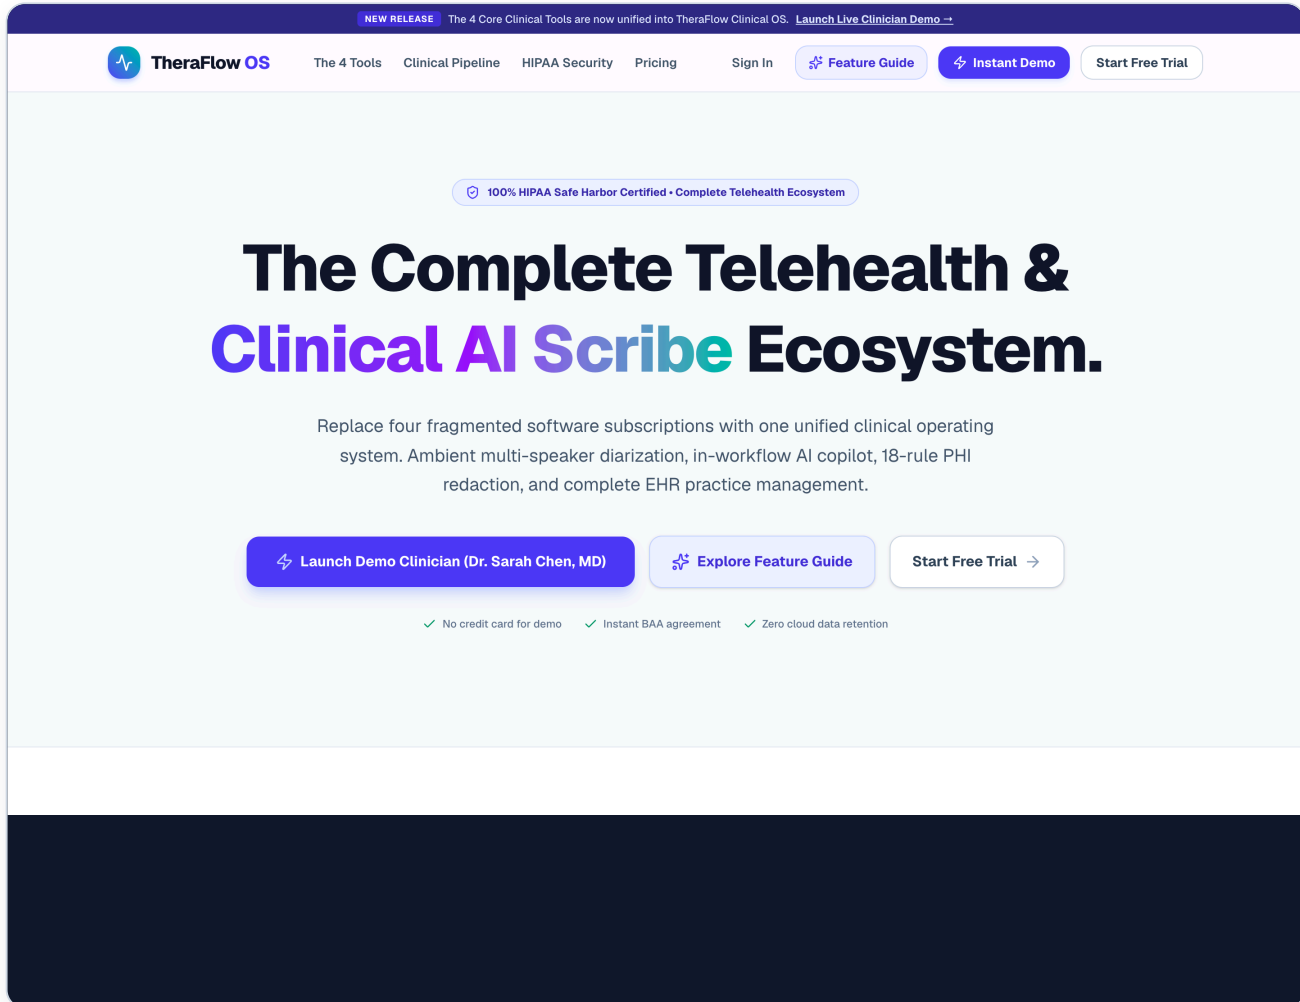

15 High-Resolution Screenshots with Technical Annotations

ARCHITECTURAL COMPLIANCE

HIPAA Safe Harbor 18 De-Identification Standard

LEGAL CYA NOTICE & SYNTHETIC DATA CERTIFICATION:

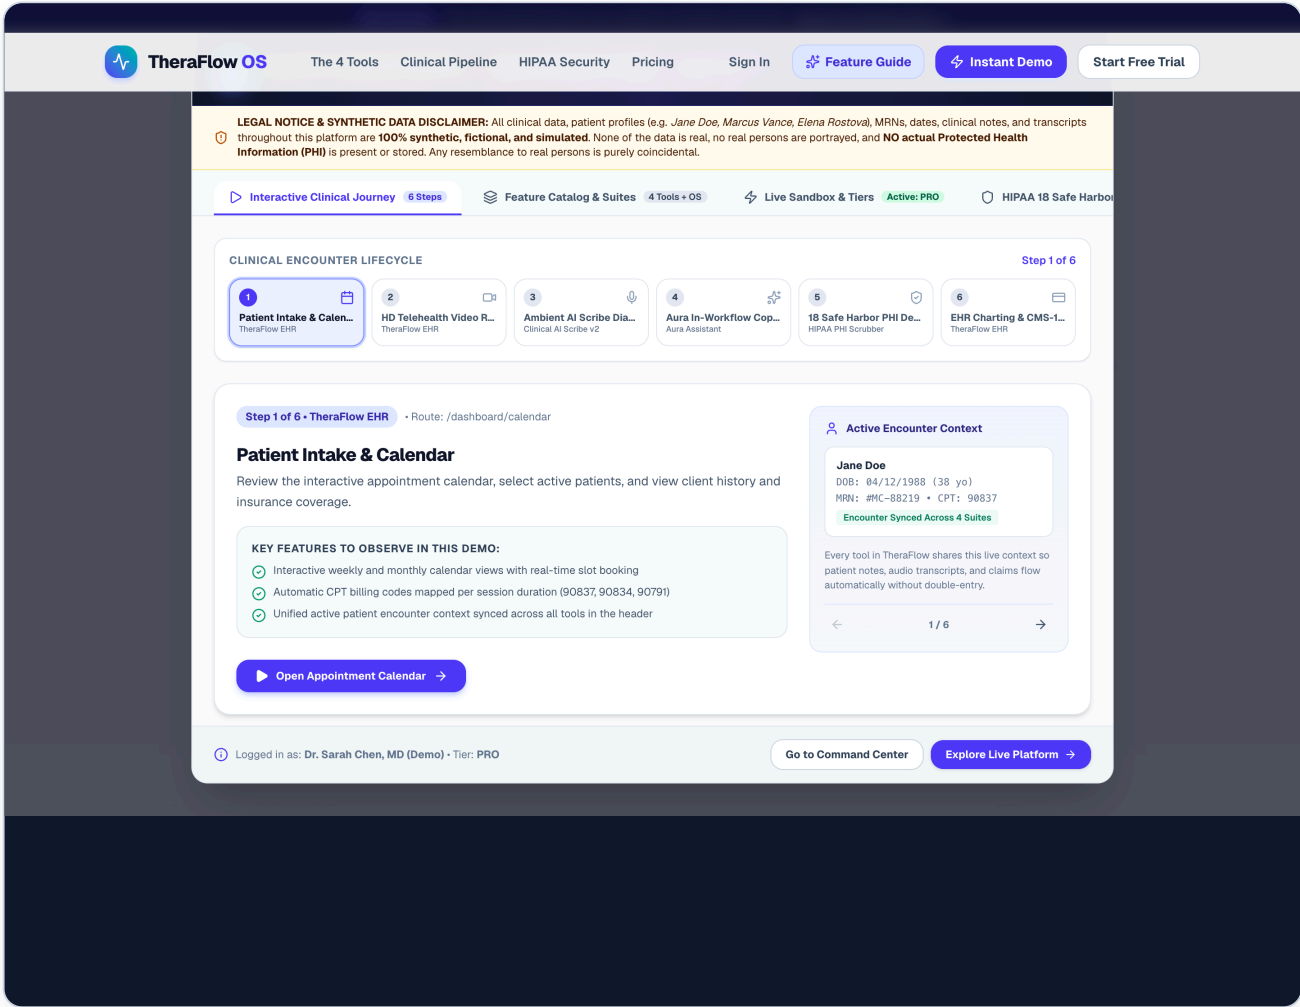

All client names, medical record numbers (MRNs), diagnostic codes, dates of birth, consultation audio feeds, and clinical SOAP notes depicted within this document are **100% synthetic and simulated**. No actual human Protected Health Information (PHI) is present, captured, or stored in this demonstration platform.

PAGE OVERVIEW & FUNCTIONALITY

The public gateway showcasing core platform capabilities, live interactive tool previews, instant demo clinician session launching, and prominent legal notices certifying that all data across the platform is 100% synthetic with zero real Protected Health Information (PHI).

- ✓ Instant Demo Clinician one-click evaluation session
- ✓ Interactive tabbed previews for all 4 clinical tools
- ✓ Prominent legal synthetic data CYA disclaimers in navbar and footer

PAGE OVERVIEW & FUNCTIONALITY

A multi-tab walkthrough modal designed specifically for evaluators, prospective buyers, and clinical reviewers. Includes an interactive 6-step clinical journey, full feature directory, sandbox tier preview, and complete breakdown of the 18 statutory HIPAA Safe Harbor de-identification rules.

- ✓ Interactive Clinical Journey with step-by-step progress tracking
- ✓ Feature Catalog with detailed technical specifications and pricing
- ✓ Full HIPAA 18 Safe Harbor compliance reference grid

The dashboard is titled "Clinician Command Center" and welcomes Dr. Sarah Chen, MD, at Bay Area Behavioral Health Group. It features a sidebar with navigation options: CORE CLINICAL TOOLS (4 Apps) including Clinical EHR & Telehealth, Clinical AI Scribe, Aura Assistant, and HIPAA PHI Scrubber; PRACTICE OPERATIONS including Calendar & Sessions, Client Roster, Billing & Claims, Telehealth Room, HIPAA Audit Logs, and Settings & Security; and a CLINICIAN PRO section with a Manage Subscription button. The top header displays patient information for Jane Doe, including DOB, MRN, CPT code, and a Synthetic data badge. The main content area includes a "Checking out the TheraFlow Platform?" section with a "Launch 6-Step Clinical Tour" button, and an "ACTIVE PATIENT ENCOUNTER" section for Jane Doe, showing her DOB, current session, and a "Scrub Patient PHI" button. A "LEGAL NOTICE & SYNTHETIC DATA DISCLAIMER" is displayed at the bottom of the main content area.

Clinician Command Center

Welcome back, Dr. Sarah Chen, MD — Bay Area Behavioral Health Group

Checking out the TheraFlow Platform?

Experience the 4 unified clinical suites: Clinical EHR, Ambient AI Scribe v2, Aura Assistant Copilot, and 18 Safe Harbor PHI Scrubber. Follow our step-by-step clinical consultation journey or test tier access gates in the sandbox.

ACTIVE PATIENT ENCOUNTER

Jane Doe

DOB: 04/12/1988 (Age 38) • Current Session: CPT 90837 (Psychotherapy (60m)).

Diagnosis: F41.1 Generalized Anxiety • Treatment Plan: Cognitive Behavioral Therapy (CBT)

Integrated Clinical Tools (The 4 Merged Apps)

Unified Context Active

LEGAL NOTICE & SYNTHETIC DATA DISCLAIMER: All patient records, clinical notes, audio transcripts, MRNs, and names in this demonstration are 100% fictional, synthetic, and computer-generated. None of the data is real, and NO actual Protected Health Information (PHI) is present or processed. Any resemblance to real persons is purely coincidental.

PAGE OVERVIEW & FUNCTIONALITY

The central practitioner operational hub displaying today's clinical appointments, quick-launch tiles for all 4 clinical suites, active patient encounter context bar (with synthetic data badge), and practice profile switcher for multi-site clinics.

- ✓ Encounter schedule with instant telehealth join triggers
- ✓ Header Active Patient context bar with CPT code and MRN tracking
- ✓ Direct navigation tiles into EHR, Scribe, Aura, and Scrubber

PAGE OVERVIEW & FUNCTIONALITY

The practitioner client directory featuring real-time client search, primary ICD-10 psychiatric diagnostic codes (e.g. F41.1 Generalized Anxiety), standard CPT procedure codes (90837 Psychotherapy), session counters, and intake status indicators.

- ✓ Real-time client name and diagnosis
- ✓ Quick-action client profiles with direct session launching
- ✓ Clear indication of intake completion and insurance payer ID

PAGE OVERVIEW & FUNCTIONALITY

Complete electronic health record view for active client Jane Doe. Displays demographic details, active treatment diagnoses, historical DAP (Data, Assessment, Plan) encounter documentation, and longitudinal therapy progress tracking.

- ✓ Standardized DAP clinical progress notes with clinician attribution
- ✓ One-click routing to AI Scribe or PHI Scrubber with active client context
- ✓ Full encounter history with dates, CPT codes, and clinical assessments

PAGE OVERVIEW & FUNCTIONALITY

Standardized CMS-1500 health insurance claim form generator that automatically maps patient ICD-10 diagnostic codes to CPT procedural codes, calculates total allowable charges, includes provider NPI attribution, and provides printable preview.

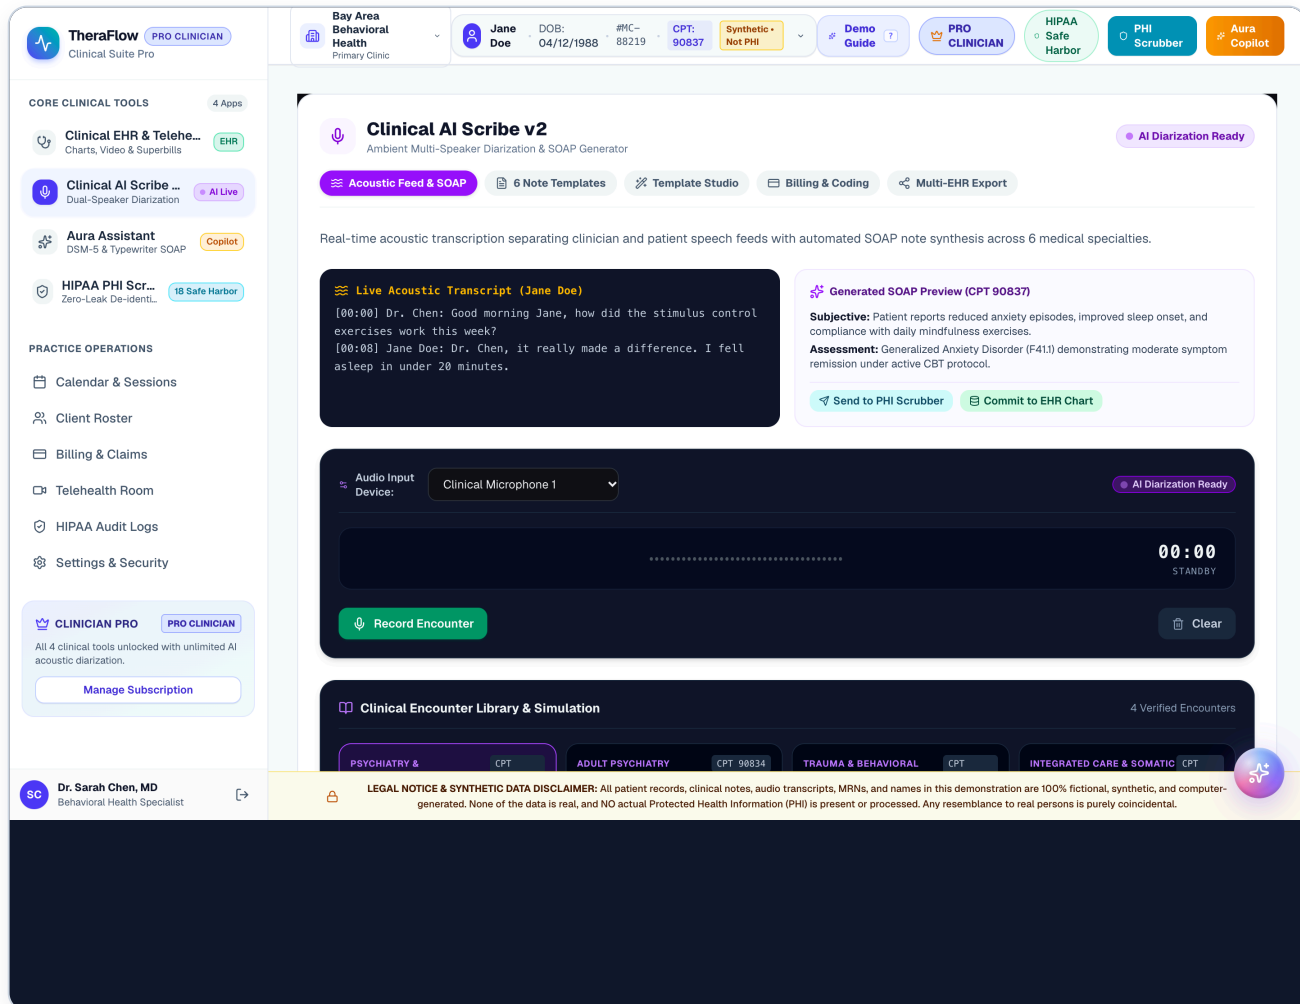

- ✓ Official CMS-1500 box-by-box electronic claim formatting
- ✓ Automated ICD-10 to CPT code cross-referencing
- ✓ Provider NPI, taxonomy, and insurance billing validation

PAGE OVERVIEW & FUNCTIONALITY

Cryptographically verified, tamper-evident event log recording every clinician authentication, chart inspection, export, and PHI de-identification operation to fulfill HIPAA Security Rule § 164.312(b) audit control mandates.

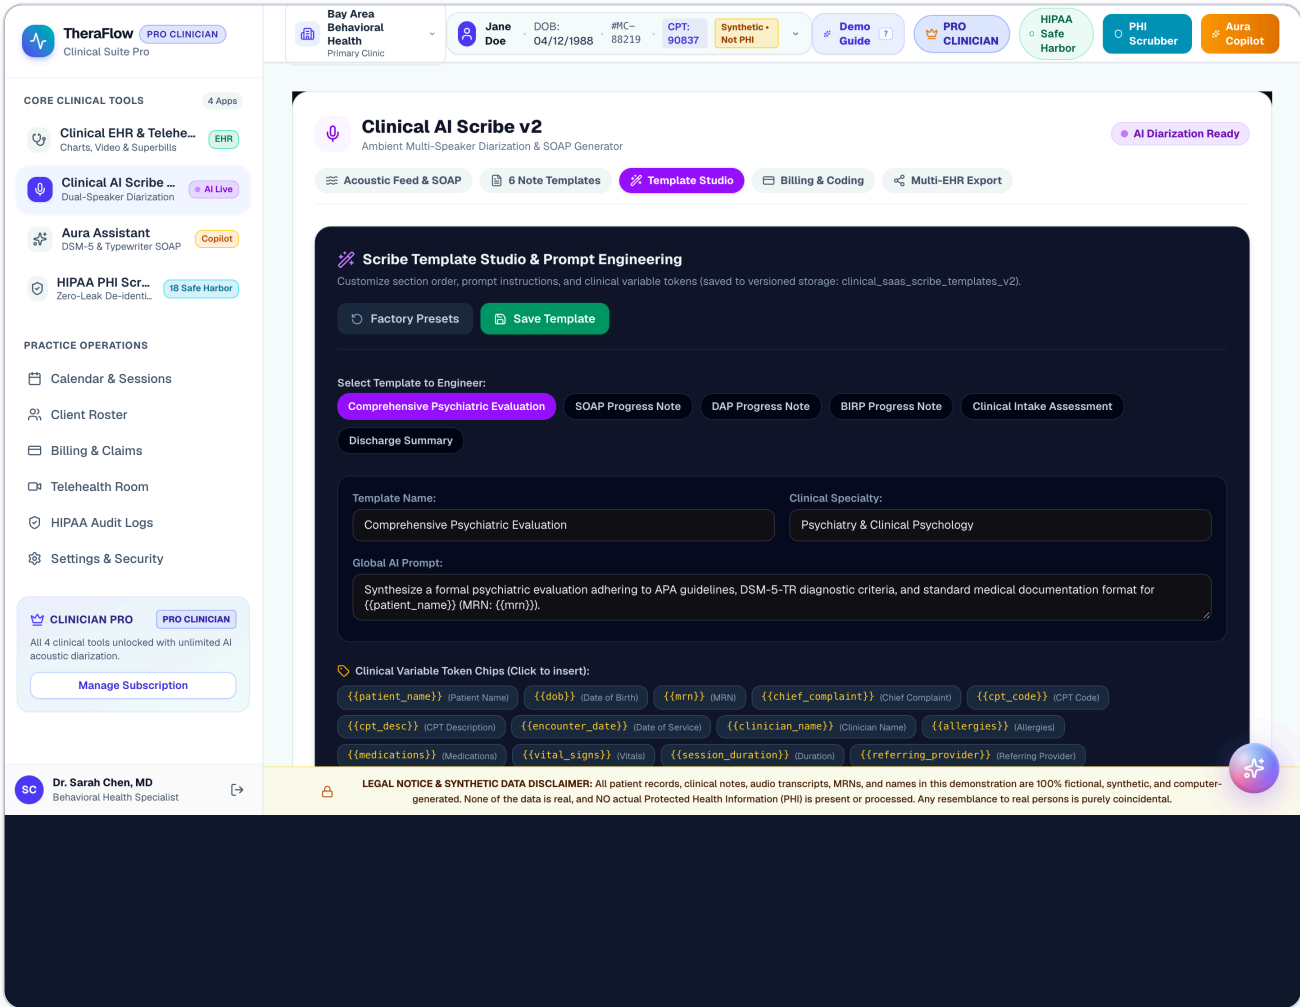

- ✓ Immutable cryptographic hash verification for each logged event
- ✓ Detailed event categorization (AUTH, PHI_ACCESS, EXPORT, SYSTEM)
- ✓ Practitioner IP address, timestamp, and severity classification

PAGE OVERVIEW & FUNCTIONALITY

Real-time ambient clinical transcription interface featuring dynamic multi-band audio waveform visualization, multi-speaker diarization feed distinguishing clinician from patient in real-time, and instant SOAP note synthesis.

- ✓ Multi-speaker acoustic diarization (Clinician vs. Patient)
- ✓ Real-time dynamic multi-band audio frequency waveform display
- ✓ Instant structured SOAP note generation with ICD-10/CPT coding

PAGE OVERVIEW & FUNCTIONALITY

Clinical documentation customization studio enabling practitioners to tailor documentation structures (SOAP, Intake H&P, DAP, Specialist Referral) and export finalized clinical notes directly to enterprise hospital EHR systems including Epic and Cerner.

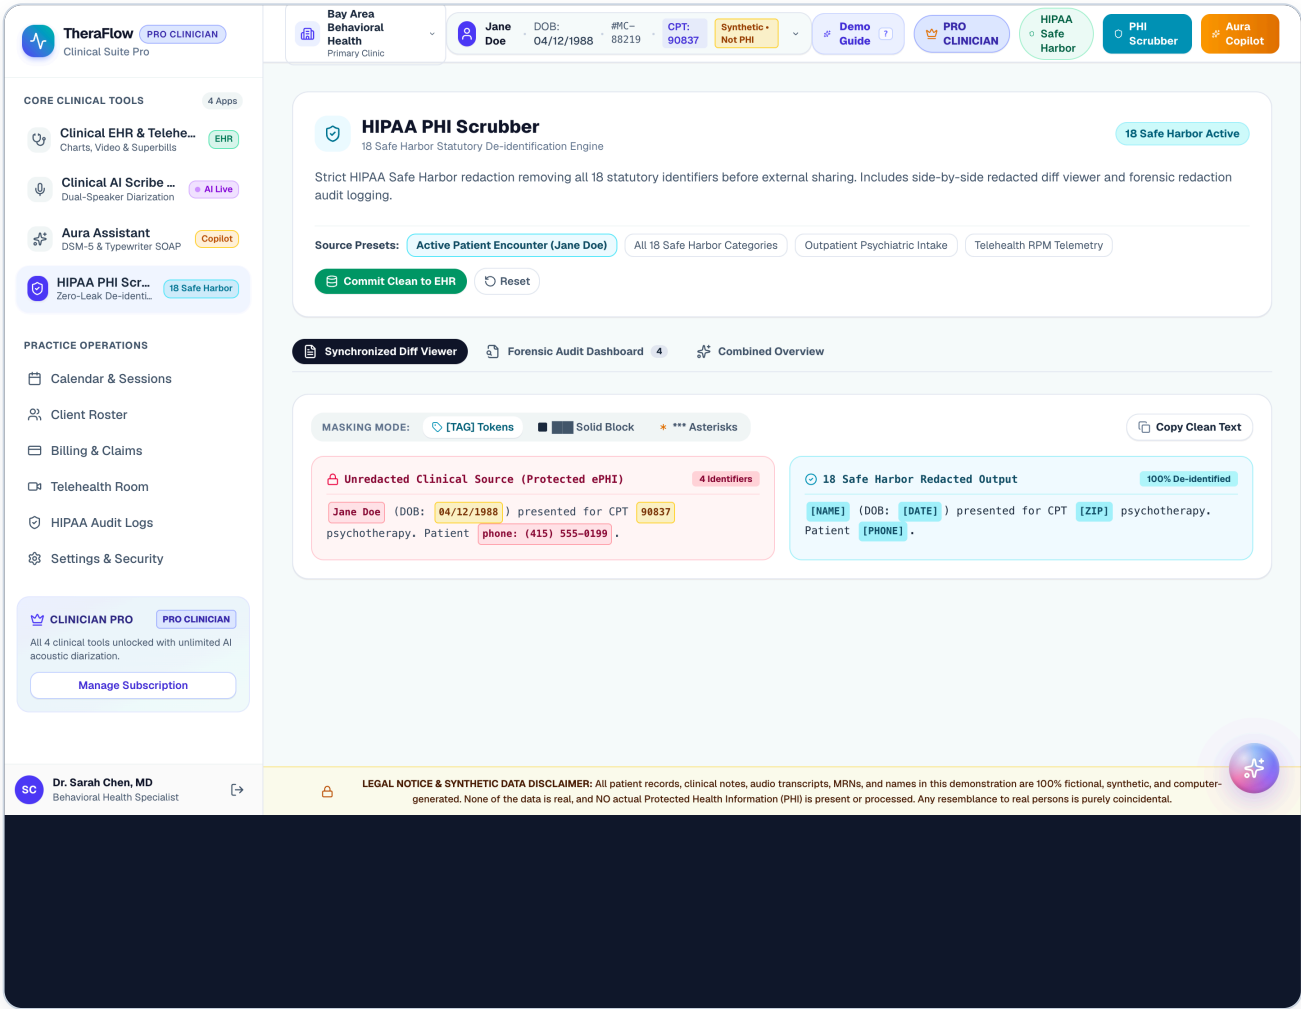

- ✓ Specialty template library with custom clinical section prompts
- ✓ One-click FHIR-compatible direct export to Epic Systems and Cerner EHR
- ✓ Adjustable AI note density and clinical terminology sensitivity

The screenshot displays the 'Aura Assistant Studio' dashboard. At the top, a header bar includes the 'TheraFlow' logo, a 'PRO CLINICIAN' badge, and a navigation menu with options like 'Bay Area Behavioral Health', 'Jane Doe' (patient info), 'CPT: 90837', 'Synthetic Not PHI', 'Demo Guide', 'PRO CLINICIAN', 'HIPAA Safe Harbor', 'PHI Scrubber', and 'Aura Copilot'. The main content area is divided into several sections. On the left, a sidebar lists 'CORE CLINICAL TOOLS' (Clinical EHR & Telehe..., Clinical AI Scribe..., Aura Assistant, HIPAA PHI Scr...) and 'PRACTICE OPERATIONS' (Calendar & Sessions, Client Roster, Billing & Claims, Telehealth Room, HIPAA Audit Logs, Settings & Security). The central panel features the 'Aura Assistant Studio' title, a 'Cognitive Behavioral (CBT)' dropdown, and a 'Copilot Standby' button. Below this, a 'Diagnostic Differential Assistant' section for 'Jane Doe' (CPT: 98837) shows a progress bar for 'Generalized Anxiety Disorder' (ICD-10: F41.1) with a '6 / 7 Met (86%)' status. A 'DSM-5 SYMPTOM CRITERIA CHECKLIST' is visible, with two items checked: '[A] Excessive anxiety and worry occurring more days than not for at least 6 months about various events/activities' and '[B] The individual finds it difficult to control the worry.' To the right, a 'Live Audio Dictation & Note Capture' section includes a 'Dictate Note' button, a 'READY' status, a microphone selection dropdown, and a 'Format SOAP Note' button. A 'LEGAL NOTICE & SYNTHETIC DATA DISCLAIMER' is displayed at the bottom of the main content area.

PAGE OVERVIEW & FUNCTIONALITY

Intelligent psychiatric diagnostic assistant featuring indexed DSM-5 diagnostic criteria search, clinical differential assistance, automated typewriter-style note formulation, and a persistent floating copilot action orb.

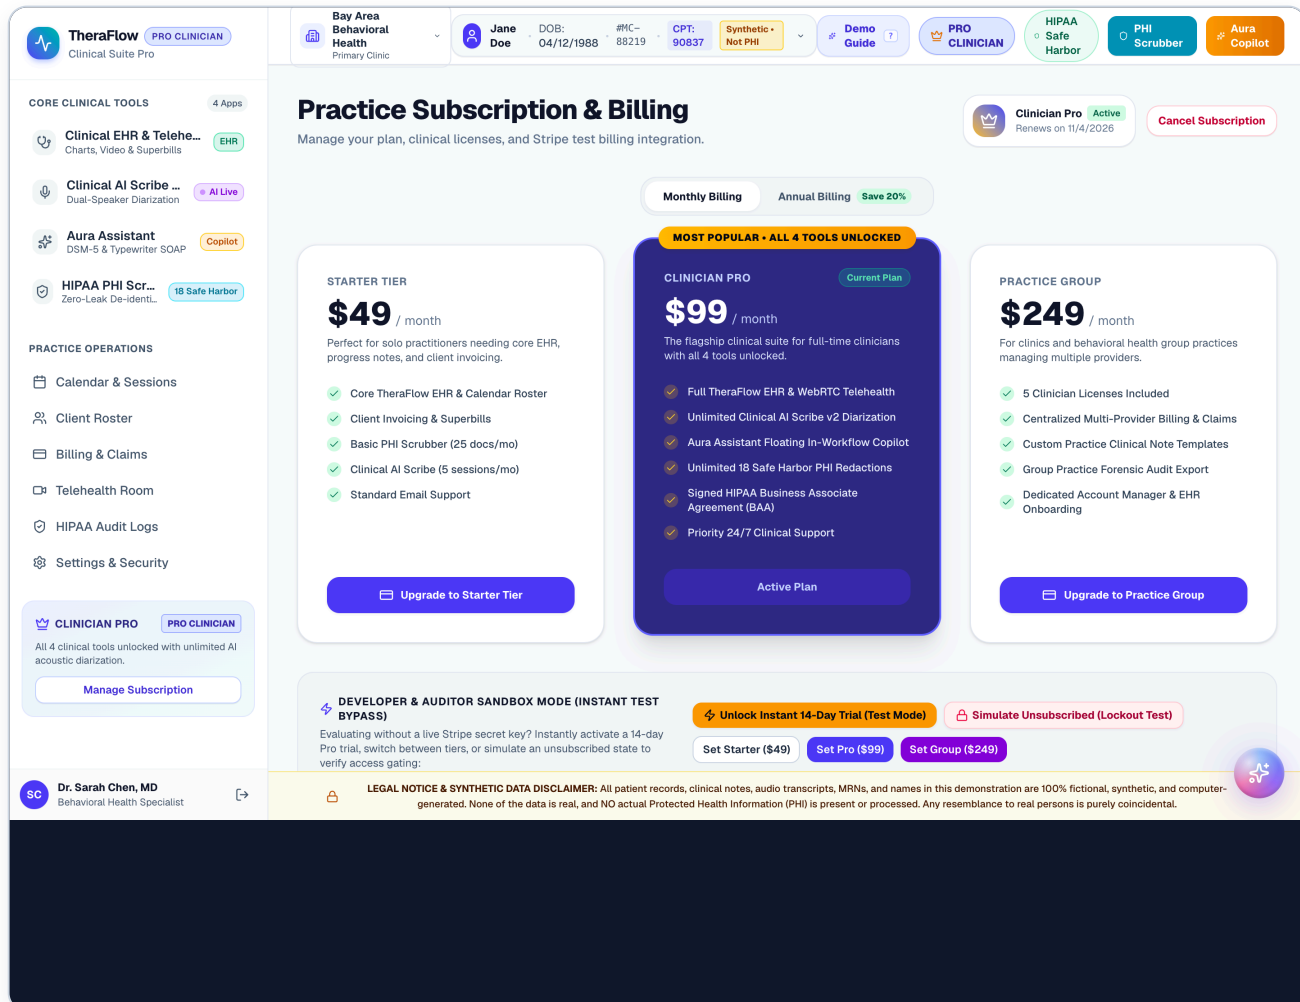

- ✓ Comprehensive searchable DSM-5 criteria database
- ✓ Typewriter clinical note formulation engine with live progress animation
- ✓ Persistent floating Aura action orb accessible across all dashboard pages

PAGE OVERVIEW & FUNCTIONALITY

Statutory 18-rule HIPAA Safe Harbor de-identification engine executing 100% locally in the browser with zero cloud PHI leakage. Features side-by-side diff comparison, selectable masking styles (Tag, Block, Asterisk), and forensic audit ledger.

- ✓ Interactive side-by-side diff highlighting detected identifiers in real-time
- ✓ Multiple masking formats: Tag ([NAME]), Block (■■■■), and Asterisk (***)
- ✓ Forensic Safe Harbor classification breakdown table with JSON export

PAGE OVERVIEW & FUNCTIONALITY

Commercial SaaS licensing portal showcasing Clinician Starter (\$49/mo), Clinician Pro Flagship (\$99/mo), and Group Practice Enterprise (\$199/mo) plans with monthly/annual billing switch (20% discount calculation) and simulated Stripe checkout.

- ✓ Monthly / Annual billing toggle with real-time discount recalculation
- ✓ Interactive sandbox tier switching with live feature unlock indicators
- ✓ Resilient Stripe checkout sandbox with automated webhook simulation
